

SOP-PV-01: Adverse Event and Product Complaint Reporting

FICTIONAL DEMONSTRATION DOCUMENT — Qorvexa Healthcare is an invented company. This product, its molecule and every clinical statement here are fabricated for software testing. Not medical information. Do not use for any clinical purpose.

Qorvexa Healthcare

1. Purpose and scope

This procedure applies to every field-force employee of Qorvexa Healthcare. It covers suspected adverse events, product quality complaints and special situations, for all Qorvexa products.

2.1 What must be reported

Any suspected adverse event of which you become aware, whether or not you believe the product caused it. Causality is not your assessment to make.

Situation	Report within	Route
Suspected adverse event	24 hours	Pharmacovigilance mailbox and your line manager
Pregnancy exposure	24 hours	Pharmacovigilance mailbox
Suspected product quality defect	3 working days	Quality Assurance
Off-label use mentioned by a prescriber	5 working days	Medical Information

2.2 What to record

- Product name and strength, and batch number if available.
- Patient identifier as given by the reporter, age band and sex. Do not collect or write down any additional identifying information.
- Description of the event in the reporter's words.
- Reporter name and contact details, and whether they consent to follow-up.

2.3 What you must not do

- Do not assess whether the product caused the event.
- Do not advise the prescriber or patient on management of the event.
- Do not delay reporting to gather more information. Report what you have.
- Do not record the patient's name, address or contact details.

3. Sample distribution

Rule	Detail
Maximum per prescriber per call	6 units
Record required	Product, strength, quantity, date, prescriber signature
Retention	Sample records are retained for 5 years
Prohibited	Samples must never be supplied to a person who is not a qualified prescriber
